

Petition to Shut Down Wally's Piggery

To relevant government and industry officials:

"The level of cruelty and disrepair at Wally's Piggery in NSW is unacceptable, with many proven breaches of The Model Code of Practice for the Welfare of Animals. I implore you to do all in your power to shut down the facility permanently and to a reasonable extent seek new accommodation for the animals where they will not be raised for slaughter.

Other piggeries elsewhere in Australia should be immediately and rigorously inspected for similar conditions."
